Almost 100 years on the Italian pharmaceutical market:

Laboratorio Farmaceutico «Antonio Sella» was established in 1920 within the Premiata Farmacia Sella alla Madonna - a pharmacy still located today in the city center of Schio (VI) - thanks to the imagination and initiative of Mr. Antonio Sella who since the early twenties has begun producing medicinal products in his galenic laboratory.

Il Laboratorio Chimico Farmaceutico A. SELLA:

- is an Italian company that operates nationally and internationally, which has always been led by the family of its founder, Mr. Antonio Sella, Pharmacist.
- since 1920, it has been a reference in the development, production and marketing of health care products.
- the company sells over 200 Sella-branded products throughout Italy and is a research and development partner and supplier of major, national and multinational, pharmaceutical companies.

Our products

- are developed to provide effective and safe answers to people's **WELL-BEING** and **HEALTH** needs;
- are **SELF-MEDICATION** products (OTC medicines not subject to prescription, medical devices, food supplements and cosmetics);
- are manufactured in compliance with the highest **PHARMACEUTICAL QUALITY** standards.
